## DR. RUSSELL H. CONWELL

To Lecture Monday, Nov. 13, at the Normal College.

Not every speaker in this age could draw an audience of 3,000 people at \$1 apiece in his own city, where he can be heard free every Sunday, but this is what Dr. Russell H. Conwell, pastor of the Temple Baptist church in Philadelphia, has done and can do. He ministers to the largest regular congregation in America, and Sunday nights an overflow meeting is held by an assistant pastor in a smaller auditorium of the great temple, the main hall of which seats 4,000 people.

Dr. Conwell is called "The Surgeon of America," because of his ability to draw and hold vast audiences by the magnetism of his person, the vigor of his thought, the beauty of his language and the force of his delivery. This, however, is but one side of this great man, for his wonderful organizing of charities and educational interests alone would make him a notable figure in the century.

This is but one of the attractions of the Normal College entertainment course, for in February Max O'Rell, the author of "John Bull and His Island," and "Johnathan and His Continent," will deliver one of his celebrated and fascinating comedy lectures. Add to these two or three fine musical attractions and other lectures of note, and the public of Greensboro is given a most notable star course for the small sum of \$2. Single tickets to Dr. Conwell's lecture will be sold at 50 cents. Former students of the college will be given the same tickets at pres. at students, on application, at \$1 each. These latter tickets are not transferable.

## At A. M. College

There will be an interesting program at the College Chapel tonight given by the Collegian Literary Society. The subject for discussion is, "Resolved, that the proposed constitutional amendment should be supported by the colored vote."

An address will be delivered by Prof. Hugo Diemer on "The necessity for indulging in productive industry." The public is cordially invited to attend.

## BRITISH LYDDITE SHELLS

Did Appalling Destruction to the Boers at Ladysmith

## MANY KILLED AND WOUNDED

Joubert Sent a Formal Note to Gen.

White Protesting Against the Inhuman Warfare.

By Cable to THE TELEGRAM.

London, Nov. 3.—A Ladysmith dispatch, dated Tuesday at 5:15 p. m., received here today, says that although Monday was not a good day for us, it was positively terrible for the enemy. Our artillery fire was appalling. The Boers lost hundreds in killed and wounded. Where the Lyddite shells from the naval guns rained upon them they fell in heaps.

Another dispatch of Tuesday states that Joubert sent a formal written protest to White against the use of the Lyddite shells, stating that they are inhuman. The British long-range guns are vastly superior to the ones used by the Boers. The dispatch states further: "The captured column of Boers exceeds 800. We are sanguine and confident we can hold our own. The British long-range guns have proved so superior, they should alter the fighting hereafter. A great artillery engagement must occur immediately. Our guns dominate those of the Boers and are much more smoothly handled. After the battle of yesterday there was a brief armistice to bury the dead and collect the wounded. The British losses are over 3,000."

## INCREASED BOER ACTIVITY.

Cape Town, Nov. 3.—Reports pour in continually of increased Boer activity in Cape Colony and on the Orange Free State frontier.

## RAILWAY INTACT.

London, Nov. 3.—A dispatch received today from Durban says the telegraph line from there to Colenso is open and that the railway to Ladysmith remains intact.

## BOERS KEEPING UP WITH ENGLAND.

London, Nov. 3.—The war office censorship extends to all South African cables except those controlled by foreign governments. Boer agents have been sending and receiving through foreign governments code messages on British preparations.

## HOBARTS CONDITION.

Had an Attack of Weakness This Morning, But Rallied.

By Wire to THE TELEGRAM.

Pateron, N. J., Nov. 3.—Hobart had an attack of weakness at 2 o'clock this morning but rallied after administration of medicine. The patient's pulse is strong and he is in a fairly good condition today.

## Appointed Second in Command.

By Cable to THE TELEGRAM.

London, Nov. 3.—Lord Charles Beresford has been appointed second in command of the Mediterranean Squadron under Sir Geo. Noel.

## Greensboro Ahead on Recruiting.

A telegram from a talk today with one of the men at the recruiting station and finds that the Greensboro office has secured more recruits for volunteer and regular army service than any other office in the state. Recruiting for the volunteer army is especially good but volunteer enlistments have been discontinued, owing to the fact that the twenty-four new regiments are full. The Greensboro office will probably be open all winter, as able-bodied men are wanted for regular army service in Porto Rico, Cuba and the Philippines. News from most of the boys who have gone from Greensboro states that they are having a very good time.

## Old Farmer Hopkins.

There was not much of a crowd and less of a show at the academy last night. "Old Farmer Hopkins" was the bill put on, and it was so thoroughly butchered that little ought to be said about it. Outside of Chas. Manley, as the farmer, and Wm. Rogers, as the helmsman, and also as Jimmy Tuff, the players were below the average. The orchestra was the best part of the show. The next attraction is the "Real Widow Brown," said to be composed of artists presenting a snappy performance. They appear tomorrow night.

## Funeral of Mrs. Davis.

A large number of sympathizing friends attended the funeral, at Westminster church this afternoon, of Mrs. E. J. Davis, whose death was chronicled in these columns yesterday. Rev. C. E. Hodgins, the pastor, conducted the service, and was assisted by Rev. Robt. E. Caldwell, of Winston, who for several years has been pastor of the church to which Mrs. Davis belonged. He made a few remarks and paid a beautiful tribute to the deceased.

## The Holiness Meeting.

Rev. Mr. Cecil preached to another large crowd at the tent last night, on the five theories of sanctification. He controverted the theory of death and growth of being the means to the end of entire sanctification, and set forth the theory of sanctification as a second work by faith, Acts 26:18. There was an excellent altar service after the sermon. About eight were converted and sanctified. Mr. Cecil also preached at the service this afternoon. Rev. Mr. Hypos will preach tonight.

## NOTES FROM HIGH POINT.

The Local News From Our Neighbor Briefly Told.

TELEGRAM BUREAU, HIGH POINT, N. C., Nov. 3.

Mr. Reeves, of Greensboro, spent yesterday in the city.

Howard Paylor has charge of the March House at Lexington.

S. Bryant came up from Randleman yesterday on business.

Miss Louise Dicks, of Randleman, passed through last evening enroute home.

Clayton Steed, of Trinity, passed through last night enroute home from Greensboro.

Herb Freeman passed through on Trinity yesterday going south on a business trip.

Will X. Coley, editor Orphan's Friend and Masonic Journal, Oxford, was here yesterday on business.

A gentleman representing Bradstreet and Dunn commercial agency at Greensboro, was in the city today on business.

After reading the news in the Telegram this evening the opera house and see "Farmer Hopkins." Admission 25, 35 and 50.

J. M. Walker, a former resident of High Point, but now of the Basic City, Va., Furniture Company arrived in the city last night for a visit.

C. E. McCarless has moved a stock of goods from the Jno. Suits building on South Main street to the Ragan & Mills store on North Main street, recently vacated by York Bros.

Go to the Enterprise office and see the largest reptile that ever crawled the soil of old North Carolina. This creeping monster will not treat you to the live goat-eating act, for it is already stuffed itself.

Admiral Schley the southern hero and gentleman will pass through here tonight at 7:47 on the fast mail, enroute to Atlanta. If the train should happen to stop (as such is often the case when passengers from the north and to get of here) perhaps the grand old man who made history at Santiago Bay that will forever live in the memory of all fair-minded Americans will let us see his face. If he shows himself give him a rousing cheer.

A few minutes past five o'clock yesterday afternoon the populace of this city was thrown into a state of excitement by a prolonged blast from the Signal factory's whistle. High Point has no fire alarm system and in case of fire the whistles from the numerous factories are the first to sound the notes of warning. And when they begin to make music in the air we know what it means. A false alarm was given yesterday. A painter who was at work on the Snow Lumber Company's factory roof happened to look toward the High Point machine works and saw smoke and fire issuing from the roof. He thought the building was on fire and at once yelled to the fireman at Snow's factory, who in response to the false report, gave a false alarm. Those who hurried around to the scene of a supposed conflagration were agreeably disappointed. But its always best to risk no chances.

## In Squire Pritchett's Court.

Squire Pritchett heard a suit this morning of C. E. Holton vs. B. Stadium for possession of the store room now occupied by Stadium, on South E. street. The magistrate gave Mr. Holton judgment for possession under the landlord and tenant act, whereupon the defendant appealed to superior court, his bond being fixed at \$600. The evidence showed that Mr. Holton had leased the store for a year to a man named Coleman, who left the city before the expiration of the lease, which was August 20, 1899, and the building was sub-let to Stadium with the consent of the owner. The magistrate held that Stadium had no contract with Mr. Holton, and was in possession merely through the courtesy of Mr. Holton. Col. John A. Barringer is counsel for plaintiff and Col. Staples for defendant.

## On Their Northern Trip.

The football team of the University of North Carolina passed through today enroute to Annapolis, Md., where they play the naval cadets tomorrow. They will take in the Export exposition at Philadelphia Sunday and Monday, and play Princeton at Princeton Tuesday, returning home Wednesday.

## Four New Cases at Jackson.

Jackson, Miss., Nov. 2.—Four new cases of yellow fever were announced in Jackson today. The thermometer is falling rapidly. Interior towns are lifting their quarantines, and by tomorrow traffic on all railroads out of Jackson will be resumed. Up to date there have been sixty cases of fever in this city and ten deaths.

## MANY GOING HOME TO VOTE

McKinley and Other Officials to Leave Washington Next Week.

## IN MARYLAND AND KENTUCKY

Diversity of Opinion on the Situation--Southerners Wed in Washington.

Special to THE TELEGRAM.

Washington, Nov. 3.—Ohio politicians in Washington say that the outlook in that state during the past few days has materially improved for the republicans. The managers in the state, it is asserted, are making tremendous efforts to win back those who are suspected of intending to vote for Jones, the independent nominee for governor, and they are, it is said, meeting with success. There is a belief existing here in Washington that after all the great strength heretofore conceded to the mayor of Toledo may not materialize, in which event Ohio is just as likely to give a big majority for Nash as anything else.

Hon. William Hahn, former chairman of the republican state committee of Ohio, is in the city. He says that Jones will not receive more than fifty or sixty thousand votes, and that Nash will be elected by not less than forty thousand. It is said that President McKinley will probably go to Ohio next week. He is expected to leave here Monday, and will return Wednesday. Since his election he has gone home each year to cast his ballot. By Saturday night very few Ohio republicans will be remaining in Washington.

The situation in Maryland and Kentucky, according to administration officials is favorable to the republican party. A Maryland republican who is in the city stated yesterday that there is not the slightest doubt of the election of Governor Lowmeyer, and he thinks his majority will be increased rather than diminished.

Democrats in the city, including a number of congressmen, take a different view of the political situation, and say that both Maryland and Kentucky are sure to go democratic. In regard to Ohio, however, they are not making any claims.

Miss Georgia Eliza Martin Wednesday night became the wife of Francis H. Miller. The marriage was celebrated at the Trinity Episcopal church, the edifice being well filled with the friends of the young couple, many of them being from the south, some of the guests coming from as far as Dallas, Texas. After an enjoyable reception at the residence of the bride's parents, Mr. and Mrs. Miller left for a month's sojourn in the state of Virginia. Upon their return to the city they will reside here.

Jan's I. Hart, of South Carolina, is in the city for a few days, stopping at the Metropolitan Hotel. Mr. Hart is in the city on personal business and will remain for several days before returning south. In conversation, he stated the other day that business in the south has been very fair during the present season. The people, he says, are for the reorganization of Bryan, although in the southern section a considerable anti-silver sentiment exists among the democrats.

At the department of agriculture it was stated Thursday that there is a great demand on the part of the farmers of the southern states for the bulletin recently issued regarding the experiments in the growing of tea on the Pinehurst estate, South Carolina.

The agricultural department officials believe that the experiment will be tried in other southern states besides South Carolina. It is said the climate is adapted for the growing of tea, and the officials are only surprised that it has not been tried before on a larger scale.

Mrs. W. V. Angle, Mrs. Dr. Minnie C. Archer, and Miss Virginia Archer, all of Houston, Texas, were at the Metropolitan Hotel Thursday morning. The ladies are here on a pleasure visit, and will remain for several days.

The comptroller of the currency has approved the First National Bank of Chicago, as reserve agents for the First National Bank of Beaumont, Texas.

He has also approved the National Bank of Commerce, of Kansas City, Missouri, as reserve agents for the Milmo National Bank, of Laredo, Texas.

## A Negro Exhibit at Paris.

Washington, Nov. 2.—Mr. Ferdinand W. Peck, the commissioner general of the United States to the Paris Exposition, has had under consideration for some time the question of a negro educational exhibit at the exposition to be under the general supervision of the commissioner in charge of the national educational exhibit of the United States. After consideration with the president today, Mr. Peck announced that he had decided to provide for the exhibition, and had appointed Thos. J. Caldwell, a well known colored educationalist, now in the employ of the war department, to have direction of it.

The Hampton and Tuskegee Institutes and the Fiske and Vanderbilt Universities will be represented in the exhibit, as well as prominent colored schools generally.

When a woman indulges in reform measures she usually consults her dressmaker.

## LIST OF PRIZES

Offered to Exhibitors at the Chrysanthemum Show Next Week.

As announced yesterday the chrysanthemum show will be held on Thursday and Friday of next week.

The ladies had a meeting yesterday evening, but did not decide on a place for holding the show, owing to the scarcity of vacant store rooms. A committee was appointed to select a place, and say they have not yet been able to secure a suitable building for the exhibition, but will do so, and their selection will be published by Monday.

Following is a list of the prizes offered by the Ladies' Aid Society of West Market street church to exhibitors at their chrysanthemum show:

**Disputes Marconi's Claim.**

**Dolbear Says He is the Discoverer of**  
Wireless Telegraphy.

Wireless telegraphy is likely to be  
the subject of litigation. Professor  
Amos E. Dolbear, of Tufts College,  
declares that he is the discoverer of  
wireless telegraphy, and he purposes  
taking steps to prevent Signor Mar-  
coni from infringing on his rights.

Prof. Dolbear is prepared to show  
that he holds and controls the United  
States patent on the whole art of wire-  
less telegraphy and wireless telephony.  
His patent was granted in 1896, and at  
the time he applied for a patent he  
made the following declaration:

My invention relates to establishing  
electric communication between two or  
more places without the use of a wire  
or other like conductor, and it con-  
sists in connecting the transmitting in-  
strument with a ground the potential-  
ity of which is considerably above the  
normal, and the receiving instrument  
with a ground, the potentiality of  
which is considerably below the normal,  
the result being that an impulse  
from the transmitter sufficient to cause  
the receiver to give intelligible signals  
is transmitted through the earth with-  
out the need of any circuit, as has  
heretofore been deemed essential.

Soon after Signor Marconi arrived  
in this country, he was formally not-  
ified by J. E. Maynard, a patent law-  
yer of Boston and counsel to Professor  
Dolbear, that he would be restrained  
from using his system of wireless tele-  
graphy anywhere in the United States.  
Professor Dolbear's counsel at first  
threatened to serve an injunction on  
Marconi, but he was compelled to use his  
system of wireless telegraphy in report-  
ing the yacht races, but subsequently an  
arrangement was allowed to use his  
system of wireless telegraphy during  
the yacht races through the courtesy  
of the American patentee. After the  
races are over Professor Dolbear pur-  
poses to maintain his claim that the  
Italian inventor has infringed his pat-  
ent.

According to Professor Dolbear's  
statements, he was sending messages  
for a distance of a mile and a half  
without the use of a wire when Mar-  
coni was only eight years old. The  
experiments were made on the campus  
of Tufts College. Professor Dolbear's  
discovery was regarded as so wonder-  
ful at that time that the Patent Office  
people were at first skeptical about its  
being founded on true scientific prin-  
ciples. For many years a Professor Dol-  
bear labored to perfect the system, of  
which in 1896 patent was the basis. I  
was years in the Patent Office, and

**Disputes Marconi's Claim.**

**Dolbear Says He is the Discoverer of**  
Wireless Telegraphy.

Wireless telegraphy is likely to be  
the subject of litigation. Professor  
Amos E. Dolbear, of Tufts College,  
declares that he is the discoverer of  
wireless telegraphy, and he purposes  
taking steps to prevent Signor Mar-  
coni from infringing on his rights.

Prof. Dolbear is prepared to show  
that he holds and controls the United  
States patent on the whole art of wire-  
less telegraphy and wireless telephony.  
His patent was granted in 1896, and at  
the time he applied for a patent he  
made the following declaration:

My invention relates to establishing  
electric communication between two or  
more places without the use of a wire  
or other like conductor, and it con-  
sists in connecting the transmitting in-  
strument with a ground the potential-  
ity of which is considerably above the  
normal, and the receiving instrument  
with a ground, the potentiality of  
which is considerably below the normal,  
the result being that an impulse  
from the transmitter sufficient to cause  
the receiver to give intelligible signals  
is transmitted through the earth with-  
out the need of any circuit, as has  
heretofore been deemed essential.

Soon after Signor Marconi arrived  
in this country, he was formally not-  
ified by J. E. Maynard, a patent law-  
yer of Boston and counsel to Professor  
Dolbear, that he would be restrained  
from using his system of wireless tele-  
graphy anywhere in the United States.  
Professor Dolbear's counsel at first  
threatened to serve an injunction on  
Marconi, but he was compelled to use his  
system of wireless telegraphy in report-  
ing the yacht races, but subsequently an  
arrangement was allowed to use his  
system of wireless telegraphy during  
the yacht races through the courtesy  
of the American patentee. After the  
races are over Professor Dolbear pur-  
poses to maintain his claim that the  
Italian inventor has infringed his pat-  
ent.

According to Professor Dolbear's  
statements, he was sending messages  
for a distance of a mile and a half  
without the use of a wire when Mar-  
coni was only eight years old. The  
experiments were made on the campus  
of Tufts College. Professor Dolbear's  
discovery was regarded as so wonder-  
ful at that time that the Patent Office  
people were at first skeptical about its  
being founded on true scientific prin-  
ciples. For many years a Professor Dol-  
bear labored to perfect the system, of  
which in 1896 patent was the basis. I  
was years in the Patent Office, and  
my son, Clinton E. Dolbear, who

**PHILIPPINE COMMISSION.**

**Its Preliminary Report Submitted to**  
the President.

Washington, Nov. 4.—In accordance  
with the act of Congress passed June  
10, 1898, the Philippine Commission  
has submitted to the President its  
preliminary report on the condition  
of the islands.

The report appears to be a compact  
summary of conditions on the islands  
as the commission left them; of the  
historical events which preceded the  
Spanish war and led to the original  
Filipino insurrection; of the exchange  
between Admiral Dewey and the other  
American commanders and the insur-  
gents; the breaking out and progress  
of the present insurrection, and finally,  
a statement of the capacity of the  
Filipinos for self-government. A no-  
table feature of the report is a memo-  
randum by Admiral Dewey explaining  
of his relations with Aguinaldo.

The commission lists briefly how it  
conducted the task entrusted to it,  
bearing statements from all classes of  
people in Manila as to the capabilities  
of the Filipinos for self-government,  
the habits and customs of the people,  
and also the establishment of municipal  
governments in many towns. All  
this matter is to be included in the  
final report.

Turning to the history of the islands  
the commission attaches little impor-  
tance to the divers rebellions which  
had preceded that of 1896. As to this  
movement they declare that it was in  
no sense an attempt to win indepen-  
dence, but solely to obtain relief from  
intolerable abuses. To sustain this  
statement they quote from an insur-  
gent proclamation issued at the time.  
The report then tells of the insurrec-  
tion which ended by Spain buying off  
Aguinaldo and his followers.

The war began in 1896 was termina-  
ted by the treaty of Biac-Na-Bato.  
The provisions of the treaty were  
never carried out, Spanish abuses be-  
gan afresh, in Manila alone more than  
200 men being executed. Hence sporadic  
risings occurred, though they  
possessed nothing like the strength of  
the original movement.

## SCHLEY PASSES THROUGH

Tonight—Come Out and Join in the Great Ovation.

Rear Admiral Winfield Scott Schley will pass through Greensboro tonight at 7:24 on No. 35, the fast mail going south. The Gate City band will assemble at the depot to do him honor, and arrangements have been perfected for a large crowd to greet the great naval hero. The managers of the affair have notified the schools and doubtless thousands will be at the station when 35 rolls in.

Admiral Schley is as great a hero as Dewey and many think greater, and besides he's a southerner.

Let everybody come out and show his appreciation of one of the ablest commanders of the American navy. Every member of the Gate City Band is requested to be at the band rendezvous at seven o'clock sharp to don uniform and be ready.

## ONE RIB BROKEN

In an Accident at the East Washington Street Crossing.

Mr. Frank A. Matthews met with a painful accident last evening at the railroad crossing on East Washington street.

He was standing on the ground holding the reins when his horse became frightened at the approach of the south-bound local train and whirled around, throwing Mr. Matthews against an embankment, and then stepped on him, breaking one rib and bruising him considerably.

As Mr. Matthews fell he lost his hold on the reins and the horse ran down the street for some distance and the cart which the animal was drawing was smashed to pieces.

The wounded man was carried to his home and Dr. Chas. Robertson dressed the wounds. He is reported to be resting easy today.

## His Best Job.

Mr. D. McDonald has in his employ a negro who has been working for him several years, and who has taken care of all his wagons, buggies, harness, harness, etc. A few days ago Mr. McDonald wanted a new set of harness cleaned up and oiled. The negro knew where all the grease, oil, paint, etc., were kept, and he was trusted to get the kind of oil needed on the harness. When Mr. McDonald came to look at the harness he saw that they looked splendid.

"Best job I ever done for you, Mr. Mack," said the darkey. Mr. McDonald was pleased and gave his faithful servant an extra quarter. A day or two later, however, he found, to his chagrin, that the negro had used what is known among painters as "Japan dry," and the harness were utterly ruined.

S. J. Kaufmann, the haberdasher, advertises well neckwear, nobby men's shoes, and men's fancy shirts. Read it.

Mr. Chambers, of Seattle, Wash., arrived last night and is visiting his daughter, Mrs. C. C. Collins. This is his first visit to North Carolina for ten years. He was formerly a resident of Danville, Va.

The train from Mount Airy, due here at noon, was nearly an hour late today, the delay being caused by the engine breaking down. The north-bound fast mail, No. 36, was also an hour late in arriving here.

Col. John S. Cunningham, the big tobacco grower of Person county, came in last evening from the Burlington fair. He spent the night with Solicitor A. L. Brooks, and in shaking hands with friends in this city today.

J. L. Whitsett, of Savannah, Ga., brother of our townsman, Dr. Whitsett, passed through the city on No. 36 today. He was on his way to Baltimore to visit his brother, A. M. Whitsett, who is reported critically ill.

Preaching at the First Presbyterian church tonight at 7:30 and tomorrow afternoon at 3 o'clock. No service tomorrow night. These services will be continued next week at the usual hour, 3 o'clock in the afternoon and 7:30 at night.

Several negroes were engaged in stacking lumber at the Cape Fear Manufacturing Co. yesterday, when the pile of lumber fell and caught Pete Alston's head and inflicted several severe bruises. Dr. Stamey attended the wounded negro, who will be all right in a few days.

Claude Elam, of this city, has accepted a position as cornetist of the Brockmann orchestra, which furnishes music for the Jefferson hotel at Richmond. He was offered the place by Prof. Chas. J. Brockmann, formerly of this city but now of Richmond. Claude left at noon and his engagement is for twenty weeks.

Much interest is being manifested in the revival at the First Presbyterian church. Rev. Dr. S. M. Smith, who is assisting the pastor preached a strong sermon last night, choosing his text from John 17: 31: "Dost thou now believe?" The speaker, in a very able manner, showed what was involved in the belief in Christ, and explained what effect it ought to have on our lives. Services each afternoon at 3 o'clock and 7:30 at night.

## The Poet Burns.

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burn's poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, 'tis half of my disease!"

"If you would escape the rock upon which the lamented Burns split," take shelter from the storm that is bound to spend its fury upon you when the fatal summons comes, by at once securing the magnetic contract offered by the Provident Savings.

## Good Insurance.

The last quarterly statement of the board of control of the Endowment Rank Knights of Pythias is an interesting document to those who are insured therein. Since July 1, 1899, seventy-five new sections have been established, 2,443 members admitted, and certificates issued, amounting to \$3,500,000. During the quarter 143 death claims were paid, distributing \$306,306 among beneficiaries. Considering the summer months embraced in the last quarter, a period of vacations and general inactivity among Lodges and Sections, the organizers for the Rank, most of whom continued actively in the field, are deserving of much credit for the results obtained. G. H. Royter, of Greensboro, as general representative, leads the United States in point of business done.

## LET THEM RECONSIDER.

Mud Piling in the Winter is Not Road Building.

In considering the proposition of Mr. Caesar Cone to macadamize one mile and a half of the county road leading beyond the terminus of Summit avenue, we learn the proposition was only temporarily declined because of an agreement with Mr. Michael, commissioner from the eastern section of the county, to send the convicts to work in that neighborhood. The commissioners, we understand, are anxious to accept Mr. Cone's proposition, but can't do it at present for the above reason.

We recognize and have respect for the situation, and want our friends in the east to have good roads as soon as possible, but what benefit can be derived from tearing up the ground at this season of the year? It will make more mud and deeper mud for the winter. We believe if Mr. Michael and his friends in the eastern section would think of it in this light that they would be willing to let the work of grading go over until spring, and let the convicts do something now that would be lasting and permanent.

We hope that, taking this view of it, the commissioners will reconsider the matter and that we can soon say that permanent road building has been begun in Guilford county.

## A Home Site Given Away.

It is our purpose to have the largest sale of lots ever held in Greensboro on November 13th, at 2:30 p. m., on Vanhook Sub-Division. One of the finest lots on Battle Ground Avenue will be given to the party who makes the largest purchase at this sale. This lot has a sign on it giving the particulars. Go out and see it before the sale.

We want, if possible, to sell 100 lots in two hours.

Our usual terms of 1-3 cash and balance in 6 and 12 months, with interest at 6 per cent on deferred payments, will prevail. A discount of 5 per cent will be allowed to all who wish to pay cash and take deed.

This will be our last auction sale of this property until next spring. Be on hand promptly at 2:30 p. m., Nov. 13th, and buy a home site at your own price. Remember that not a by-bid will be allowed.

Jordan & McDonald,  
W. R. Land.

## Shoes for the Fastidious

And sensible ladies, that not only try to have their feet trim and dainty, but to protect their health and keep their feet dry and warm in winter weather; they will find in our new stock the latest styles and most artistic shapes, and at prices that will enable the woman with slim purse to have a pretty clad foot.
